*A Story of Hope*

Maycly Michel, an 11-year-old boy in Haiti, lives with his parents and sister. Because of poor harvests, Maycly's father struggled to provide for his family. Then friends like you sent him the gift of vegetable seeds. Maycly's father was also trained by FH staff on new, improved ways to farm. After his first planting, his harvest doubled, then tripled. Since his family now has access to abundant produce, Maycly and his sister are healthy and thriving.

A LIFE-CHANGING GIFT

has been given

**IN YOUR HONOR**

This gift helps vulnerable families plant seeds for vegetables, fruit, and more. Thanks to you, they will also receive training on how to grow abundant crops, resulting in nutritious food and a steady income!
