

# THE GIFT of ANIMALS

## *A Story of Hope*

Salome and her son, Said, live in Bolivia. Thanks to the generosity of donors like you, FH helped them build and manage a coop with chickens that produce eggs for the family. Before the chickens, Said was malnourished. Now his mom says, "Thank God he is recovering and improving in height and weight from eating eggs. He is gaining weight and he likes to eat eggs because he says that they taste better than those sold in the store."

## A LIFE-CHANGING GIFT

has been given

### **IN YOUR HONOR**

Animals provide a sustainable source for meat, eggs (from chickens), manure, offspring, and income to a family for years. This gift includes training on the best ways to care for the animal and to use what it produces.
