

*A Story of Hope*

For over 30 years, Abdela and his wife, Nasra, diligently worked on their farm, but the land began to deteriorate, resulting in poor harvests. Because of this, Abdela and Nasra struggled to feed their children and send them to school. With help from friends like you, FH staff trained Abdela on improved farming techniques, doubling his harvest – so much that he had to buy a grain store! Now he can feed his family every day and earn extra income.
